Key Programming Software Update for Renault® ADS2287 - Code D753916AD

United Kingdom Advanced Diagnostics is pleased to announce the release of an update to the Renault® 2019 ADS2287 software for the Smart Pro only. The software is for programming keys on various Fiat®, Opel®-Vauxhall®, Nissan®, Renault® and Smart® vehicles worldwide and is the FIRST to do this SECURELY when all keys are lost (including the Renault® Captur and Clio 4). All the keys and remotes have to be erased before programming new ones.

Italy Advanced Diagnostics ha sviluppato un aggiornamento per il software ADS2287 Renault® 2019, utilizzabile esclusivamente con Smart Pro, per programmare le chiavi di diversi modelli Fiat®, Opel®-Vauxhall®, Nissan®, Renault® e Smart®. Si tratta della PRIMA soluzione al mondo in grado di programmare una nuova chiave IN SICUREZZA in caso di perdita dell'originale (anche per i modelli Renault® Captur e Clio 4). È necessario cancellare dalla centralina tutte le chiavi e i radiocomandi archiviati prima di programmarne di nuovi.

Germany Advanced Diagnostics hat das Software-Update ADS2287 Renault® 2019 entwickelt, die ausschließlich mit Smart Pro zur Programmierung des Schlüssels einiger Fiat®, Opel®-Vauxhall®, Nissan®, Renault® und Smart® Modelle genutzt werden kann. Dies ist die ERSTE Lösung der Welt, die einen neuen Schlüssel SICHER programmieren kann, selbst wenn der Originalschlüssel verloren ist (auch für die Modelle Renault® Captur und Clio 4). Alle gespeicherten Schlüssel und Fernbedienungen müssen vom KFZ-Steuergerät gelöscht werden, bevor neue Schlüssel programmiert werden.

France Advanced Diagnostics a développé la mise à jour du logiciel ADS2287 Renault® 2019, exploitable exclusivement avec Smart Pro, pour programmer les clés de certains modèles Fiat®, Opel®-Vauxhall®, Nissan®, Renault® et Smart®. Il s'agit de la PREMIÈRE solution au monde qui permet de programmer une nouvelle clé en toute sécurité même en cas de perte de l'original (pour les modèles Renault® Captur et Clio 4 aussi). Toutes les clés et les télécommandes mémorisées doivent être supprimées de l'unité de contrôle du véhicule avant d'en programmer de nouvelles.

Spain Advanced Diagnostics ha desarrollado la actualización software ADS2287 Renault® 2019, para el uso exclusivo con Smart Pro, que permite programar las llaves de algunos modelos de Fiat®, Opel®-Vauxhall®, Nissan®, Renault® y Smart® y es la PRIMERA solución en el mundo que también puede programar las llaves de MANERA SEGURA en caso de pérdida total (también para los modelos Renault® Captur y Clio 4). Todas las llaves y los mandos almacenados se borrarán antes de la programación.

Portugal A Advanced Diagnostics desenvolveu a atualização do software ADS2287 Renault® 2019, que pode ser utilizado exclusivamente com Smart Pro, para programar as chaves de alguns modelos Fiat®, Opel®-Vauxhall®, Nissan®, Renault® e Smart®. Esta é a PRIMEIRA solução no mundo que pode programar uma nova chave em segurança, mesmo em caso de perda da original (também para os modelos Renault® Captur e Clio 4). Todas as chaves e rádio controles armazenados devem ser apagados da unidade de controle do veículo antes de programar os novos.
